HOW TO CITE RULES AND RSMo

RULES—Cite material in the *Missouri Register* by volume and page number, for example, Vol. 28, *Missouri Register*, page 27. The approved short form of citation is 28 MoReg 27.

The rules are codified in the Code of State Regulations in this system—

They are properly cited by using the full citation, i.e., 1 CSR 10-1.010.

Each department of state government is assigned a title. Each agency or division within the department is assigned a division number. The agency then groups its rules into general subject matter areas called chapters and specific areas called rules. Within a rule, the first breakdown is called a section and is designated as (1). Subsection is (A) with further breakdown into paragraph 1., subparagraph A., part (I), subpart (a), item I. and subitem a.

ules appearing under this heading are filed under the authority granted by section 536.025, RSMo 2000. An emergency rule may be adopted by an agency if the agency finds that an immediate danger to the public health, safety or welfare, or a compelling governmental interest requires emergency action; follows procedures best calculated to assure fairness to all interested persons and parties under the circumstances; follows procedures which comply with the protections extended by the Missouri and the United States Constitutions; limits the scope of such rule to the circumstances creating an emergency and requiring emergency procedure, and at the time of or prior to the adoption of such rule files with the secretary of state the text of the rule together with the specific facts, reasons and findings which support its conclusion that there is an immediate danger to the public health, safety or welfare which can be met only through the adoption of such rule and its reasons for concluding that the procedure employed is fair to all interested persons and parties under the circumstances.

ules filed as emergency rules may be effective not less than ten (10) days after filing or at such later date as may be specified in the rule and may be terminated at any time by the state agency by filing an order with the secretary of state fixing the date of such termination, which order shall be published by the secretary of state in the *Missouri Register* as soon as practicable.

Il emergency rules must state the period during which they are in effect, and in no case can they be in effect more than one hundred eighty (180) calendar days or thirty (30) legislative days, whichever period is longer. Emergency rules are not renewable, although an agency may at any time adopt an identical rule under the normal rulemaking procedures.

Title 10—DEPARTMENT OF NATURAL RESOURCES Division 20—Clean Water Commission Chapter 7—Water Quality

EMERGENCY AMENDMENT

10 CSR 20-7.031 Water Quality Standards. The department's Water Protection Program is filing this revision to ensure that state water quality standards (WQS) are functionally equivalent to federal standards and that improve the clarity, specificity, and effectiveness of the standards.

PURPOSE: This emergency amendment allows the state to modify the water quality criteria for bacteria in Table A of the Water Quality Standards (WQS).

EMERGENCY STATEMENT: This emergency amendment provides immediate authority to the Department of Natural Resources to use an alternative numeric criterion for E. coli bacteria in waters of the state that have a Whole Body Contact Recreation (WBCR) Category B designated use. The present numeric criteria of five hundred fortyeight (548) colony forming units (cfu) of Escherichia coli (E. coli) per one hundred milliliters (100 ml) was adopted from earlier epidemiological studies that have since been determined inadequate to support any standard above two hundred six (206) colony forming units (cfu) per one hundred milliliters (100 ml) of water. EPA is objecting to any actions, which have included water quality assessments or permits

based on a standard greater than 206 cfu/100 ml. EPA's objection to the state's use of the existing standard is expressed in a letter dated August 15, 2008, relative to a draft wastewater discharge permit written by the state using the existing standard. In their letter, EPA issues a general objection on the basis that the draft permit ". . . does not set forth acceptable final effluent limits for E. coli consistent with 40 CFR 122.44(d)." In another letter, dated September 24, 2008, EPA states that the state of Missouri makes an error in their water quality assessments performed during the preparation of the state's impaired waters list. EPA explains that "Missouri assessed numerous waters that are designated for Whole Body Contact Recreation-Category B against the E. coli criterion of 548 cfu/100 ml. This criterion has not been approved by EPA and is, therefore, not effective for Clean Water Act (CWA) purposes." Because of these objections, the state is unable to issue permits or complete water quality assessments in accordance with current state rules. Therefore, the department is unable to protect, through permits and water quality assessments, the WBCR Category B Designated Use in the waters of the state. A greater risk to public health exists when permits are not written promptly to require adequate pollution control and when assessments are delayed in identifying waters in exceeding water quality criteria so that appropriate protection or restoration of water quality can be initiated. Missouri currently has approximately twenty thousand (20,000) miles of streams that have the WBCR Category B designated use assigned. The department is proposing to adopt the numeric criteria of 206 cfu/100 ml to ensure adequate protection of the citizens of the state who may recreate in these streams. This standard was deemed acceptable following a report issued by EPA in February 2004. The report states—"Based on a review of the studies used in the derivation of EPA's section 304(a) criteria for bacteria, EPA recommends states and authorized tribes select a risk level for fresh waters between 0.8 and 1.0 percent." The standard of 206 cfu/100 ml equates to the risk level of one percent (1%). EPA has given verbal assurance that they would accept this standard. Missouri is also pursuing a proposed rule to change the standard to 206 cfu/100 ml. In the interim, the alternative numeric criteria is immediately needed to protect public health and to avoid objections from EPA that would cause significant delays on permits and water quality assessments. The scope of this emergency amendment is limited to the circumstances creating the emergency rulemaking amendment and complies with the protections extended in the Missouri and United States Constitutions. The Clean Water Commission believes this emergency amendment is fair to all interested persons and parties under the circumstances. This emergency amendment was filed on November 12, 2008, is effective November 22, 2008, and expires May 20, 2009.

Executive Orders

December 15, 2008 Vol. 33, No. 24

he Secretary of State shall publish all executive orders beginning January 1, 2003, pursuant to section 536.035.2, RSMo Supp. 2007.

EXECUTIVE ORDER 08 - 37

WHEREAS, Missouri's tourism industry adds more than \$14 billion dollars a year to the Missouri state economy and attracts millions of guests from other states and nations; and

WHEREAS, Missouri's tourism industry could not be as robust as it is without the lodging services offered each year to those guests; and

WHEREAS, increasingly, travelers prefer to support local businesses that can document a commitment to environmental protection; and

WHEREAS, no such mechanism currently exists in the state of Missouri; and

WHEREAS, the Missouri Department of Natural Resources is charged under state law with promoting programs that encourage energy conservation and environmental stewardship.

NOW, THEREFORE, I, MATT BLUNT, GOVERNOR OF THE STATE OF MISSOURI, by virtue of the authority vested in me by the Constitution and the laws of the state of Missouri, do hereby order the Missouri Department Natural Resources to:

- 1. Develop a voluntary certification program for Missouri's lodging industry to assist owners and managers to identify environmentally responsible practices;
- 2. Develop a verification and recognition program for those businesses that choose to participate;
- 3. Identify one or more private sector partners to assist in promoting this program with the industry; and
- 4. Implement this program with their partner(s) on or before December 31, 2008.

IN WITNESS WHEREOF, I have hereunto set my hand and caused to be affixed the Great Seal of the State of Missouri, in the City of Jefferson, on this 13th day of November, 2008.

Matt Blunt Governor

Robin Carnahan Secretary of State Inder this heading will appear the text of proposed rules and changes. The notice of proposed rulemaking is required to contain an explanation of any new rule or any change in an existing rule and the reasons therefor. This is set out in the Purpose section with each rule. Also required is a citation to the legal authority to make rules. This appears following the text of the rule, after the word "Authority."

ntirely new rules are printed without any special symbology under the heading of the proposed rule. If an existing rule is to be amended or rescinded, it will have a heading of proposed amendment or proposed rescission. Rules which are proposed to be amended will have new matter printed in boldface type and matter to be deleted placed in brackets.

n important function of the *Missouri Register* is to solicit and encourage public participation in the rulemaking process. The law provides that for every proposed rule, amendment or rescission there must be a notice that anyone may comment on the proposed action. This comment may take different forms.

If an agency is required by statute to hold a public hearing before making any new rules, then a Notice of Public Hearing will appear following the text of the rule. Hearing dates must be at least thirty (30) days after publication of the notice in the *Missouri Register*. If no hearing is planned or required, the agency must give a Notice to Submit Comments. This allows anyone to file statements in support of or in opposition to the proposed action with the agency within a specified time, no less than thirty (30) days after publication of the notice in the *Missouri Register*.

n agency may hold a public hearing on a rule even though not required by law to hold one. If an agency allows comments to be received following the hearing date, the close of comments date will be used as the beginning day in the ninety (90)-day-count necessary for the filing of the order of rulemaking.

If an agency decides to hold a public hearing after planning not to, it must withdraw the earlier notice and file a new notice of proposed rulemaking and schedule a hearing for a date not less than thirty (30) days from the date of publication of the new notice.

Proposed Amendment Text Reminder: **Boldface text indicates new matter**.

[Bracketed text indicates matter being deleted.]

SUMMARY OF COMMENTS: No comments were received.

Title 10—DEPARTMENT OF NATURAL RESOURCES Division 23—Division of Geology and Land Survey Chapter 2—Well Drillers and Pump Installers Permitting

ORDER OF RULEMAKING

By the authority vested in the department's Well Installation Board, under section 256.606, RSMo 2000, the board amends a rule as follows:

10 CSR 23-2.010 Fee Structure is amended.

A notice of proposed rulemaking containing the text of the proposed amendment was published in the *Missouri Register* on August 1, 2008 (33 MoReg 1408–1414). No changes have been made in the text of the proposed amendment, so it is not reprinted here. This proposed amendment becomes effective thirty (30) days after publication in the *Code of State Regulations*.

SUMMARY OF COMMENTS: A public hearing on this proposed amendment was held September 2, 2008, and the public comment period ended September 5, 2008. At the public hearing, the Division of Environmental Quality staff made opening statements regarding the proposed amendment, and four (4) comments were made. There were an additional four (4) comments made by mail/email.

COMMENT #1: Mr. J.C. Booth, Booth Drilling Company, stated that he thought the increase in fees was excessive due to the economy and high price of steel casing. He felt the increase would be a hardship on well owners as well as well drillers.

RESPONSE: Most fees associated with this rulemaking have not been increased since 1994, and the water well certification fee has not been increased since 1990, therefore falling behind the current inflation rate. New fees for prospective well owners are approximately one percent (1%) of the cost of a new well. No changes have been made to this rule based on this comment.

COMMENT #2: Mr. Jay Gallagher, Custom Well & Pump, commented that the department is on the wrong track. He stated that since operating expenses for the section are fixed from year-to-year regardless of the number of wells drilled, the only increase in fees should be to the contractor licenses. He added that the contractor fees are more stable than the number of wells drilled each year.

RESPONSE: During the stakeholder process, a recurring theme was to raise the maximum on all fees. Stakeholders made numerous comments that the drilling industry should not have to bear the burden of the entire fee increase. Maximum permitting (licensing) fees will be increased, however the current level of permit fees is comparable to the national average of one hundred dollars (\$100) per permit (license) and may not have to be raised at this time. No changes have been made to the rule based on this comment.

COMMENT #3: Ms. Leslie Holloway, Missouri Farm Bureau, commented on several things. She questioned the reason for the increase in expenses to the section in the last few years, questioned why the Farm Bureau was not a part of the stakeholder process, and requested clarification on the caps (maximums) for the fees. She wanted to know the plan for how the increases would be determined for the life of the rule.

RESPONSE: After the hearing, staff met with all attendees of the public hearing to try to clarify section expenses, maximums listed in the proposed amendments, and that the Well Installation Board is the governing group that will determine when and the amount of the fee increases. No changes have been made to the rule based on this comment

COMMENT #4: Mr. Allen Rowland, Missouri Farm Bureau, questioned why the fee increases are so high, wanted to know the costs to the department to run the program, wanted more clarification on the maximum amounts to be charged, and wanted the department to make farmers more aware of proposed changes to rules.

RESPONSE: Staff met with all attendees of the public hearing to try to clarify section expenses, maximums listed in the proposed amendments, and that the Well Installation Board is the governing group to determine when and the amount of the fee increases. No changes have been made to the rule based on this comment.

COMMENT #5: Mr. John Byrd, Irrigation Central, stated he was concerned that the water well certification fee was increasing so much and stated he had questions about permit fees being increased. He followed his comment by stating that the question he had regarding permit fee increases was resolved by staff before the hearing began.

RESPONSE: The water well certification fee has not been increased since 1990. When the rule was promulgated at that time, the current thirty-five dollar (\$35) fee was based on the department charging one percent (1%) of the cost of a new well. The cost of a new well has increased over the last eighteen (18) years, and the new fee structure reflects that increase. No changes have been made to the rule based on this comment.

COMMENT #6: Mr. Lindell Lindsey, A & M Pump/Missouri Water Well Association, stated that the association had no strong opposition to increasing the maximum fees in the proposed amendment. He added that the economy has drastically changed since the stakeholder meetings and would like to see a schedule regarding the rates at which the fees would be increased and when. He also added that he and the Association do not want to see the fees raised to their maximums to support staff whose workload may have decreased due to fewer wells being drilled.

RESPONSE: The Well Installation Board will set the rate at which the fees will be increased during a regularly scheduled board meeting, which may be attended by the public. Since the Missouri Water Well Association has no objection to the proposed maximum fee increases, no changes have been made to the rule based on this comment.

COMMENT #7: Two (2) written comments were received from Michael and Jami Geske stating the proposed increases are too expensive and will be passed on to individual landowners, especially those who have wells drilled for irrigation.

RESPONSE: The current water well certification fee has not been increased since 1990 and the proposed increase is approximately one percent (1%) of the cost of a new well. In 2007, there were approximately three hundred eighty-two (382) irrigation wells drilled in Missouri. The cost of a new well has increased over the last eighteen (18) years, and the new fee structure reflects that increase. No changes have been made to the rule based on this comment.

Title 20—DEPARTMENT OF INSURANCE, FINANCIAL INSTITUTIONS AND PROFESSIONAL REGISTRATION

Division 2165—Board of Examiners for Hearing Instrument Specialists Chapter 1—General Rules

ORDER OF RULEMAKING

By the authority vested in the Board of Examiners for Hearing Instrument Specialists under sections 346.115.1(7) and (8), RSMo 2000, the board amends a rule as follows:

20 CSR 2165-1.020 Fees is amended.

A notice of proposed rulemaking containing the text of the proposed amendment was published in the *Missouri Register* on August 1, 2008 (33 MoReg 1459–1463). No changes have been made to the text of the proposed amendment, so it is not reprinted here. This proposed amendment becomes effective thirty (30) days after publication in the *Code of State Regulations*.

SUMMARY OF COMMENTS: The Board of Examiners for Hearing Instrument Specialists (BEHIS) received five (5) comments on the proposed amendment.

COMMENTS: Scott George, James Gallaher, Janette Call, Floyd Hansett, and Dick and Robin Clay all submitted essentially the same comments to the board both during the comment period for this proposed amendment as well as when division staff attended a meeting of the Small Business Regulatory Fairness Board. Commenters stated 1) the proposed fee increase is dramatic, that it creates a barrier to entry into the profession, and that it contributes to increasing

health care costs; 2) the State Board of Registration for the Healing Arts (BHA) subsidy was not considered and that any shortfall in funding is only temporary; 3) the increase in exam fees is not related to actual costs; 4) the Board of Examiners for Hearing Instrument Specialists (BEHIS) is inefficiently organized; and 5) the rule was improperly promulgated. The board also received a copy of an email calling for opposition to the proposed amendments, originally addressed to approximately seventy-six (76) different email accounts from Mr. Hansett in his capacity as the president of the Missouri Hearing Society, the trade association of hearing instrument specialists.

RESPONSE: BEHIS appreciates the serious issues raised by the comments. It notes, however, that the comments represent less than ten percent (10%) of the group that was specifically asked by email to object to the proposed rule, and two percent (2%) of the two hundred seventy-four (274) hearing instrument specialists who hold licenses with the board. BEHIS consists of six (6) members of the profession (all of whom either own or work for a small business) and a public member. Because of the similarity of the concerns expressed, they are answered as a group.

Issues 1, 2, & 3—The proposed fee increase is dramatic and the Healing Arts subsidy was not considered:

As required by section 346.115, RSMo, fees are to be set at a level which does not substantially exceed the cost of administering the provisions of Chapter 346, RSMo. In addition to direct costs of board operations, each board within the Division of Professional Registration is assessed a percentage of the cost allocation plan in order to support services provided by the division, department, and general revenue agencies which include Office of Administration, Governor's Office, Lieutenant Governor's Office, Secretary of State's Office, General Assembly, Capital Police, and Department of Revenue. Additionally, section 346.115, RSMo, prevents the board from collecting excessive fees by forfeiting them to the state's general revenue fund.

The division and its boards utilize a rolling five (5)-year financial analysis process to evaluate fund balances, establish fee structures, and assess budgetary needs. The five (5)-year analysis is based on the projected revenue, expenses, and number of licensees. Prior to House Bill 780 and Senate Bill 308, the board anticipated a fee increase would be necessary to maintain adequate funding (see scenario A). Due to various factors over the last five (5) years, the board has seen a steady increase in operating expenses. Most notably are the one hundred forty-three percent (143%) increase in fees for legal services provided by the Attorney General's Office and an eighteen percent (18%) increase in expense and equipment costs related to the board.

House Bill 780 and Senate Bill 308 removed the dual licensure requirement for audiologists and included a provision requiring BHA to subsidize the potential loss of revenue for the BEHIS. Prior to the enacted legislation, the total licensee count for BEHIS was four hundred forty-five (445); with the enactment of the legislation, the licensee count reduced to two hundred thirty-four (234). The change in the licensure law was effective only four (4) months before the profession renewed its licenses. The change and the significant drop in the licensee count occurred very quickly. It should be noted that House Bill 780 and Senate Bill 308 did not mandate audiologists to renew their hearing instrument license past the December 31, 2007, expiration date.

The primary revenue source for the board is license renewal fees. Other fees increased in the proposed amendment will contribute to the board funds as well; however, those fees were increased to cover specific costs of the services provided. For instance, the application fee, training application fee, and temporary permit extension fee have not been increased since the original rule proposal became effective on November 15, 1996. The only fees that have been increased are the exam fee that was originally established on November 15, 1996, at a rate of twenty-five dollars (\$25) and was increased on June 1,

1999, to ninety-five dollars (\$95). The renewal fee was increased from its original rate of one hundred twenty-five dollars (\$125) to two hundred fifty dollars (\$250) effective November 15, 2006. The increased renewal fee was due to the implementation of biennial renewals and was not an actual fee increase.

In an attempt to offset the impact of increased costs, an inactive fee was established by BEHIS in the most recent proposed amendment to allow licensees who are not actively practicing to pay a reduced fee to maintain their license.

The board is confident that the indirect increases to health care costs and the considerations of those planning on entering the profession will be minimal.

During its deliberations, the board considered all of these factors and determined that the fees are absolutely necessary to maintain the fund balance as required by statute and are set at the minimal amount necessary to cover the board's expenses.

The following scenarios were considered and support that the fee was set at a sufficient level to cover the expenses of the board.

Issue 4—The board is inefficiently organized.

Unfortunately, there was no attempt by the commenters to support this statement with any facts. Responding generally, the division has combined and shared several staff positions and resources allowing boards to reduce the cost of doing business. The allocation percentage is based on the estimated resource time needed to administer the provisions of Chapter 346, RSMo, and is evaluated on a regular basis. However, it is important to note that expense and equipment costs specifically related to BEHIS is paid solely by this board. The shared staff consists of three (3) full-time employees. The allocation percentage will continue to be monitored on a quarterly basis.

More specifically, it is not possible to compare the work load of audiologists imposed on the board compared to hearing instrument specialists because the audiologists were primarily licensed by another profession. Even with the reduction of licensees, the work load of BEHIS is not anticipated to decrease and board costs are expected to remain the same as the audiologists were not the primary driver of expenses incurred by the board.

Issue 5—The rule was improperly promulgated.

Chapter 536, RSMo, requires a small business impact statement when a small business is directly impacted. There is no foundation for the claim that small businesses were not included in the rule-making process. Board members are the owners or employees of small businesses. One member of the board is also a member of the board of directors of the profession's trade association, the Missouri Hearing Society. It is unfair to assume that the members of a professional board, who are actively involved day-to-day in the work of the profession, lack an understanding of what impact their actions have on their own livelihood.

Although the increase in fees for the professionals who work for them will undoubtedly have an indirect impact on the businesses that employ hearing instrument specialists, the proposed amendment does not mandate that small businesses pay the licensing or other fees of their employees. BEHIS only has the statutory authority to license individuals. The distinction between licensure of individuals and the licensure of business entities is important and has been consistently applied since Executive Order 3-15, the predecessor to the statutory Small Business Regulatory Fairness Board, was issued. Since 2003, the board and the Division of Professional Registration have followed this same analysis. A copy of the original guidelines, drafted by an assistant general counsel of the Department of Economic Development, is attached.

For the foregoing reasons, the board took no action to change the proposed amendment.

- 1. Prior to filing a proposed rule(s), the state agency first shall determine whether a proposed rule(s) is required to have a small business impact statement. If the agency determines that its proposed rule(s) does not affect small business, the agency shall include a certification of "no impact" in the transmittal letter to the Secretary of State at the time the proposed rule(s) is filed. It should be noted that a rule is not deemed to affect small businesses if its only effect is to impose regulations on an individual who may be employed by or engaged in the operation of a small business.
- 2. If the state agency determines the proposed rule(s) does affect small businesses, the agency must then determine whether the proposed rule(s) falls under an exception to the requirement of filing a small business impact statement. A small business impact statement is not required in the following circumstances:
 - a. The proposed rule(s) is being promulgated on an emergency basis pursuant to section 536.025, RSMo; or
 - b. The proposed rule(s) substantially codifies existing federal or state law, without imposing requirements that affect small businesses in addition to what is already required by federal or regulations, or state statutes. It should be noted that federally imposed regulations are subject to the federal Regulatory Flexibility Act as amended by the Small Business Regulatory and Enforcement Fairness Act (*see* 5 U.S.C. §§ 601 et seq.). If the federal regulations were not enacted pursuant to the requirements of these acts, the state agency shall be required to comply with the requirements of Executive Order 03-15.

If the state agency determines that the proposed rule(s) falls within an exception to the requirements of Executive Order 03-15, the agency shall state which exception applies in the transmittal letter to the Secretary of State at the time the proposed rule(s) is filed.

- 3. If the state agency determines the proposed rule(s) does affect small businesses and does not fall with an exception to the requirements of Executive Order 03-15, the agency shall prepare a small business impact statement. The small business impact statement shall be included with the proposed rule(s) filed with the Secretary of State. A copy of the proposed rule(s) and the small business impact statement shall be submitted to the Joint Committee on Administrative Rules and the Missouri Small Business Regulatory Fairness Board on the same date as they are filed with the Secretary of State.
- 4. Until such time as the Missouri Small Business Regulatory Fairness Board is appointed, a copy of the proposed rule(s) and the small business impact statement may be filed with the Office of the General Counsel in the Missouri Department of Economic Development. The Office of General Counsel shall maintain a file of proposed rules and small business impact statements to be submitted to the Missouri Small Business Regulatory Fairness Board once the Board has been appointed and is in operation.

PROCEDURES FOR RESPONDING TO BOARD RECOMMENDATIONS

- 1. The state agency may receive comments and recommendations from the Missouri Small Business Regulatory Fairness Board concerning any agency rule that the Board has determined has a disproportionate and adverse impact on small businesses. The Board's recommendations may be based on any one or combination of the following:
 - a. The rule creates an undue barrier to the formation, operation and expansion of small businesses in a manner that significantly outweighs the rule's benefit to the public. An "undue barrier" occurs when a rule imposes excessive and unreasonable requirements on small businesses such that small businesses are greatly inhibited in their formation, operation or expansion; or
 - b. New or significant economic information has created an undue impact on small businesses. An "undue impact" occurs when a rule imposes excessive and unreasonable financial costs on small businesses in a manner that greatly inhibits the ability to operate small businesses; or
 - c. Technology, economic conditions or other relevant facts justifying the purpose for the rule has changed or no longer exists; or
 - d. If the rule was adopted after the requirements of Executive Order 03-15 became effective, whether the actual effect on small businesses was not reflected in or significantly exceeded the small business impact statement submitted prior to the adoption of the rule(s).

- 2. The state agency shall have sixty (60) days from the date of the agency's receipt of comments and/or recommendations from the Board in which to file a response. The agency shall respond to each specific comment and/or recommendation.
- 3. If the state agency determines that no action shall be taken on the Board's comments and/or recommendations, the agency shall explain its reasons for such determination. The agency's response shall include any relevant information and data that helps to explain its determination that no action should be taken.
- 4. If the state agency determines that the Board's comments and/or recommendations merit an amendment to the agency's rule(s), the agency shall indicate this in its response to the Board and thereafter initiate proceedings in accordance with the applicable requirements of Chapter 536, RSMo.
- 5. If the state agency determines that the Board's comments and/or recommendations merit an amendment to the agency's proposed rule(s), and the comments/recommendations are received prior to the filing of a final order of rulemaking, the agency may implement the changes in its final order of rulemaking to be filed with the Secretary of State and in accordance with the applicable requirements of Chapter 536, RSMo.
